

THE LEADER OF RUBBER PRODUCTS

WHO WE ARE

S.K. Polymer is one of Thailand's leading molded rubber and plastic parts manufacturers. We started as a small entrepreneurial company in 1991. At the present, we have over 600 people working together to deliver quality rubber and plastic components for automotive, electrical appliance, electronic equipment, pharmaceutical, medical devices and other industries.

- Automotive Parts
- Pharmaceutical, Medical Devices & Food Contact Rubber Parts
- Electrical Appliances & Electronic Equipment Parts
- Other Industries

- SKP
- Polymate
- AromDee
- ReServ
- NaturaPlas

Design & Produce Polymer Products for your Brand Identity

Key Facts

Established:	1991
Registered Capital:	70,000,000 BAHT
Core Business:	Molded Rubber and Plastic parts
Areas (Main Factory):	7,962 Square metres;
New Location:	14,500 Square metres
Mixing Capacity:	4,000 Tons/year
Numbers of Employees:	600
Certificates:	ISO 9001:2015, ISO IATF16949, ISO 13485
DUNs Number:	66-070-2432

OUR NEW FACTORY

The new site in Lat Lum Kaew, PathumThani province has the total production areas of 15,700 square meters. It is designed to be comprised of 4 buildings for 7 business units 2 units for Thai Rubb Tech Company and 5 units for S.K. Polymer

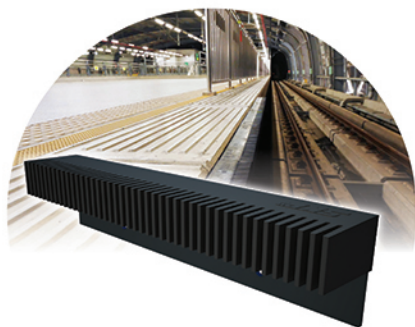

Molded Rubber & Plastic Manufacturer

Thai Rubb Tech
One-Stop Service Solutions
for Rubber Industry

Complete Solutions for IT Services

World-Class Organization

OUR QUALITY IMPROVEMENT

WHAT WE OFFER

Product range by material

Rubber

NR, EPDM, Silicone, NBR, SBR, CR, HNBR, Fluorosilicone, FKM, IR, IIR, BIIR, VITON, Liquid Silicone, etc.

Plastic :

ABS, PC, PE, EVA, HDPE, PA, PA 66, HIPS, LDPE, LLDPE, PA 6, PBT, POM, PP, PS, SAN, PMMA, PVC, PA66+GF30%, PBT+GF30%

Thermoplastic

Elastomer (TPE / TPO)

Thermoplastic

Natural Rubber (TPNR)

Products range by industries

Electronic and Electrical

- Anti-vibration Rubber
- Rubber Cap
- Rubber Plug
- Rubber Finger
- Rubber Foot
- Rubber Block
- Sealing Rubber
- P.V. Bellow
- Rubber-metal bonded parts

Automotive

- Brake and clutch System
- Air Conditioning & Engine Cooling System parts
- Rubber Parts for Battery
- Rubber Parts for Interior and console panels
- Assembly & Body Parts
- Rubber Bushes
- Absorption Rubber Parts
- Rubber Protectors
- Injection Plastic Parts

Pharmaceutical and Medical devices

- Silicone Implatable Medical Devices
- Pharmaceutical-Grade Polymer Parts
- Medical-Grade Polymer Parts
- Food-Contact Products
- Healthcare and Wellness Products

Others

- Traffic Control System (TCS)
- Railway System
- Poultry Picking Fingers Products
- Housing Valve & Air Valve
- Piping Seal
- Diving Mask
- Ruuber Support Condensing
- Silk Screen Squeegee
- Rubber Flooring
- Sustainable Products
- O-Ring
- Seal
- Gasket

WHY S.K.POLYMER

Valued Business Partner

Our commitment to delivering both quality products and responsive service in a timely manner results in a significant number of our customers placing their trust in S.K. Polymer as their single source supplier. We play a part in making customer's cost less than their competitors through improvement in process efficiency, easy-assembly design and numerous VA/VE projects.

Workforce Capability

Our key strength is to have in-house specialist, mostly graduates in Polymer Technology. Our team, from operations to management, consists of energetic people well trained in continuous improvement. We strongly believe that human resources are the core competence that will drive the organization to achieve our goals and make substantial investments in our employees' learning activities. Our philosophy is to enlighten our people to the benefits of structured and logical thinking.

Excellent Quality Systems & Standards

Our continuous TQM implementation has been a key factor in attaining ISO 9001, ISO 13485 and ISO IATF 16949 certifications. We are the first Thai rubber manufacturer to be certified by Underwriter Laboratories (UL). We are REACH and RoHS compliant. Our food grade products have been approved by Japan Recreation and Miscellaneous Good Safety Laboratory (Japan), Pollock and Pool (N) Limited (England) and the Ministry of Public Health (Thailand).

Sustainability

For sustainable growth, we focus in resource utilization and continuous improvement in technology particularly in mold design, formulation research and process engineering. In addition, we have risk management mechanisms in areas like material cost and exchange rates, and diversifying our market in both segmental and geographical dimensions. These fundamentals help us to maintain corporate profitability and sustainability. We are also in preparation to become a public company listed in the stock exchange in 2026.

**“ We are a World-Class Innovative organization
dedicated to creating values for mankind through
polymer products. ”**
